This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTION

THE Parish of Manchester as it existed during the period covered by the first volume of the Registers was an extensive one, having an area of about fifty square miles. The town was even then recognized as a great business centre. Leland writing in 1538 described it as "The fairest, best buildid, quikkest, and most populus tounne of al Lancastreshire; yet is in hit but one paroch chirch, but is a College and almost throughout doble ilyd, ex quadrato *lapide durissimo*, whereof a goodly quarre is harde by the Towne."

The parish and collegiate church which Leland saw is now the cathedral church of the Diocese of Manchester as well as the parish church of the very restricted cathedral parish.

The old parish church of Manchester was dedicated to St Mary. In 1421 Thomas La Warr, lord of the Manor of Manchester and rector of the parish, obtained a licence to erect the parish church into a collegiate church and to appropriate for its support the revenues of the parish church and parcels of the manor. The collegiation was completed in 1422, the collegiate body consisting of a keeper or master [i.e. the warden], eight fellows chaplains, four clerks and six choristers. The collegiate church was dedicated to St Mary, St Denis and St George. In 1547 the college was dissolved and the college house (now Chetham's Hospital and Library) and some of the lands were sold to the Earl of Derby. In 1553 the college was refounded by Queen Mary. In 1578 the foundation was dissolved and Queen Elizabeth granted the college, under the designation of the College of Christ, a new charter which remained in force until 1638, when Charles I granted another charter. Under the charter of 1638 the college was governed, with the exception of the period of disestablishment during the Commonwealth, until the 19th century. In 1840 an Act of Parliament changed the title of the "Warden and Fellows" to "Dean and Canons." In 1847 on the foundation of the see of Manchester the "Old Church," as it had been familiarly called for over a century, became the Cathedral.

The clergy connected with the college have been numerous, and a few of them were distinguished men. Lives of the wardens and fellows will be found in the publications of the Chetham Society, N.S. 5, 6, 21 and 23, and a general history of the college in Hibbert Ware's *Foundations in Manchester.*

The Manchester Registers, including as they do not only the whole of the baptisms, burials and marriages of the inhabitants of the central and most populous part of the parish, but also many from the outlying chapelries and the adjoining parishes, have more than the usual interest.

The Registers commence in 1573. This is so much later than the order (1538) which originated our parish registers, that we may be certain that the first 20 or 30 years of the Register have been lost. This is no recent loss as is shown by the memorandum of 1693 quoted later.

The oldest extant volume of the Registers is a transcript made in 1600 in compliance with an ordinance respecting registers made by the Convocation of Canterbury in 1597 and subsequently embodied in the 70th canon of 1603. By the ordinance each parish was to provide itself with a parchment book in which the entries from the old paper books were to be fairly and legibly transcribed. From the beginning the registers of baptisms, marriages and burials have, in Manchester, been kept separate and not mixed as in many parishes, but for almost a couple of centuries the three registers were bound together.

The Registers consist of (1) the Registers proper, (2) Paper Books, (3) Sexton's Books, and (4) "Indexes."

(1) Registers Proper.

The following is a list of the first class with references to such of the others as supplement the Register.

As the volumes are not numbered I have given each a number or title and number in square brackets, in addition to the present lettering, which is often inaccurate.

Volume I. is the volume here printed. It consists of 257 leaves of parchment.

Volume II. begins "A Register booke provided by ye Curche [*sic*] wardens of this prñte yeares of our Lorde God 1616 and 1617."

Volume III. illustrates at its best the system of civil registration adopted during the Protectorate. Births instead of baptisms are recorded and the details as to parentage and condition of bridegrooms and brides are almost as full as under our present system. The Manchester Registers in the Commonwealth period are indeed a joy to genealogists. This volume was lost for very many years, probably sixty. It was missing when John Palmer made his extracts and also in 1831 when the "Parish Register Abstract" was compiled. In 1843 it was discovered in the office of Messrs Cooke, Beever and Darwell, Attorneys-at-Law, and by them restored to the collegiate church.

Volume IV. "A Register Booke provided by the Churchwardens for the yeare of our Lord God 1662 and 1663" has the following note on the first page:—

"No. 2, 1693.

Memorandum, y^t^ ye Register Books belonging to ye Church of Manchester were upon ye death of Mr John Newton late parish clark called for and examined by ye Warden Dr Wroe and [found] to be all there and complete and perfect, viz.: 4 Books [of] Parchment, and one in paper for burying in Woollen. Witness my hand Ric. Wroe Warden of Manchester."

The books mentioned would be Volumes I. II. III. IV. and V., and this shows that as early as 1693 the Registers prior to 1573 were no longer in existence.

Volume VI. "A Register Book provided by the Church Wardens for the year of our Lord God 1701 and 1702" also contains a memorandum by Warden Wroe.

"July 10, 1711. Memorandum, y^t^ ye Registre Books belonging to ye Church of Manchester, were upon ye death of Jeremy Bancroft late Parish Clark and Register called for and examined by ye Warden Dr Wroe, and found to be all there, and complete and perfect, viz.: 5 Books in Parchment, and one in Paper, for Burials, wch were ȳ delivered to Mr Joseph Latham lately made Parish Clark by ye s^d^ Warden, to keep ye same as Register.

Witness my hand Ric. Wroe Warden of Manchester."

Following this is the Parish Clerk's receipt:—

"Received ȳ ye Registre Books above mentioned from ye hands of Dr Wroe, by mee Joseph Lathom."

In the same year the Churchwardens awoke to the fact that the Canon of 1603 was not being observed. Hence the following memorandum:—

"November ye 25th, 1711.

Memorandum, That ye Register Bookes belonging to the Parish Church of Manchester wch had for some time been kept by ye Clarks contrary to ye Cannon in y^t case made and provided were by the Churchwardens whose names are subscribed called for in and examined and being found to be all compleate and perfecte were put into a Chest in ye Church wth 3 Locks there to be kept as ye Cannon directs to witt 5 Books in Parchment and one paper booke for burials wch being found to go to decay an augmentation was made to ye Parchment booke and ye Burialls ordered to be registred therein; As witness our hands ye Day and Year above

The "paper booke for burials which being found to go to decay" was superseded in 1711, is Vol. V. and is still in good condition. Volume VII., lettered 1728—1791, really contains entries to March 1738—9 only. At the end, however, is entered "An Account of the Births and Burials of the children of Thomas Butterworth Bayley Esquire of Hope, etc." dated "Hope October 4th 1783," but containing later entries. As many of Bayley's children were baptized by Nonconformist ministers this was probably his means of getting their names placed on public record.

Where the volumes of the Register overlap it is by no means to be taken for granted that the entries of that period are identical. In Vol. III. 1662, Mar. 28, is the burial of "John Benson of Manchester." Vol. IV. under the same date records the burial of "John Benson of Manchester shoemaker." The addition of the trade might be essential to identification.

(2) Paper Books.

The Paper Books are the books in which events were entered as they occurred to be subsequently copied into the Register proper. The Register proper is legal evidence, and it has been decided that documents like the Paper Books are merely private memoranda and are not admissible as evidence. Nevertheless, whatever they may be technically, the Paper Books are in fact very important evidence, and having been written up at the actual time of the event are really better evidence than the Register proper. The entries in the Paper Books are very often fuller than the same entries in the Register proper. At one period the Paper Book invariably gave the street address (e.g. Deansgate) of persons named in the entries while the corresponding entries in the Register proper give only the town "Manchester." As further illustrations of the value of the Paper Books a couple of extracts may be given, the additional information in the Paper Book being given in brackets.

"1696, Aug. 7, Sarah wife to Ralph Pycroft of Manc^r [Buried beehinde Warrington]

1696, Sep. 14, Richard Booth of Manch^r [Orgenest]."

In the Paper Books groups of entries are often out of chronological order. In the following schedule these groups are numbered in the order in which they occur in each volume.

Although the Paper Books are valuable records which should be carefully preserved they are not, I think, parts of the Register proper. Several of them, however, have been bound and lettered as if they were the Register proper, while the series which seems to me to be the Register proper is called the "Index."

(3) Sexton's Books.

Another series of valuable records consists of the Sexton's Books. These are volumes in which the sexton recorded not only the names of persons buried but also particulars as to fees, ages and causes of death. The Registers proper do not give ages at death before 1813 while the Sexton's Books give them sixty years earlier.

Schedule of Sexton's Books.

[Sexton's Book I]	(*No ages or causes of death*)	11 Jan. 1743–4 to 24 Oct. 1752

[Sexton's Book VII] Burials 1803 to 1811		1 Jan. 1803 to 29 May 1811

(4) "Index."

The last series of Registers is that called the "Index." The "Index" is a chronological copy of the Register, but most of the earlier volumes styled the "Index" appear to me to be the Register proper, as they are the only registers for the period complying with the Canon of 1603 by being on parchment. As such they are included in the first schedule. The first of the "Indexes" other than those which are really Registers proper, is of marriages from 1754. As there are many entries on a page it is easier to find any particular marriage by the "Index" than by turning over the pages of the Register containing the forms on which marriages were entered under the 1753 Act. Apart from the "Indexes" of marriages, the other so-called "Indexes" are really Registers proper until the Act of 1812 came into force.

The Registers are safely and commodiously housed in the Registry of the Cathedral. Thanks are due to the Right Rev. Bishop Welldon, Dean of the Cathedral, and to the churchwardens of Manchester for their kind permission to print the Registers, and to the Rev. A. C. Keene, B.D., Clerk in Orders, Mr C. W. Sutton, M.A., the Senior Churchwarden, and Mr Alfred Wilson, the Verger, for the very courteous manner in which they have facilitated the revision of the transcript. Mr Sutton, in his other capacity of Chief Librarian and, as such, custodian of John Owen's transcript, has taken an active interest in the work throughout.

The late John Owen transcribed the whole of the marriages from the beginning in 1573—1804, the baptisms to 1751 and the burials to 1750, and subsequently made a fresh copy, the entries being in alphabetical (not lexicographical) order. These two transcripts, with a copy of part of the Sexton's Books and copies of all the inscriptions in the Cathedral and formerly in the graveyard, are now preserved amongst the Owen MSS. in the Reference Library, Manchester. Though not without errors Owen's transcripts, especially the alphabetical one, are invaluable as affording a ready clue to the contents of the Registers. They are, of course, freely accessible to all who desire to use them.

Though Manchester had only one Parish Church there were in the parish a number of chapels more or less autonomous and with registers of their own. These chapelries were as follows and had,

according to the "Parish Register Abstract," registers earlier than 1812 of the dates mentioned:—

*Ardwick (Baps. 1740—1812; Marr. 1741—53; Burs. 1741—1812).
Birch (Baps. and Burs. 1752—1812).
*Blackley (Baps. 1655—78, 1688—1812; Marr. 1668—75, 1718—1752; Burs. 1655—78, 1688—1812).
Cheetham (Baps. and Burs. 1794—1812).
Chorlton [cum Hardy] (Baps. 1737—1812; Burs. 1753—1812).
Denton (Baps. and Burs. 1694—1812; Marr. 1694—1723, 1724—56?).
Didsbury (Baps. and Burs. 1561—1812; Marr. 1561—1751. Printed to 1757 by the Lancashire Parish Register Society).
*Gorton (1570—1812).
Heaton Norris (Baps. 1765—1812; Burs. 1767—1812).
*Newton (Baps. 1665—1812; Marr. 1682—1754; Burs. 1728—1812).
Salford (Trinity, Baps. 1708—1812; Burs. 1709—1812; Marr. 1708—51. St Stephen's, Baps. 1794—1812; Burs. 1805—12).
Stretford (1598—1710, 1713—1812).

In addition to these chapels there were several town churches:—*St Ann's (1736—1812); *St Mary's (1756—1812); St John's (1769—1812); St James' (1788—1812); St Michael's (1789—1812) and St Luke's (1805—12). Marriages took place at St Ann's before 1753, and there and at St John's and St Mary's after 1804.

The following is a list of the old parishes encircling Manchester with the dates of their Registers:—

Eccles (Begin 1564. Printed to 1632 by the Lancashire Parish Register Society).
Prestwich (Begin 1603).
Ashton-under-Lyne (Begin 1594).
Stockport (Begin 1584. Printed to 1619 by Mr E. W. Bulkeley. MS. transcript to 1646 in the Reference Library, Manchester).
Cheadle (Begin 1558).
Northenden (Begin 1564).
Ashton-on-Mersey (Begin 1636).
Flixton (Begin 1571. Transcript to 1787 [Baps. and Burs.] and 1754 [Marr.] in the Reference Library, Manchester).

* Transcripts of the whole or a substantial portion of these Registers are in the Reference Library, Manchester.

It having been announced that I was to edit this volume, I may be allowed a word of explanation.

A typed copy of John Owen's transcript was the basis of the present volume. It had been my intention to compare this transcript with the original and to have a volume ready for publication in the course of two or three years. I had reckoned without Mr Brierley. Instead of waiting my leisure, Mr Brierley, assisted by Mrs Brierley and Miss Wrigley, took the whole of the revision, proof-reading and indexing in hand, and before I saw a proof the whole of the work was done, and the editor that was to have been had no opportunity of doing anything except writing the introduction and thanking his Wigan friends. Josiah Arrowsmith, probably the most enthusiastic member of our Society and its valued auditor, was looking forward to taking the lion's share of the work of revision of the Manchester Registers when death removed a gentle, lovable man and a most painstaking and unassuming worker for the Lancashire Parish Register Society.

Christian Names and Surnames.

Christenings	*pp.*	1—208	*inclusive.*
Burials	„	209—423	„
Weddings	„	424—480	„

Where a name has variants the Head-name has been selected which now exists or which most closely resembles the modern equivalent. All variants are separately Indexed with cross references to the Head-name.

Where a Surname has an *alias* each form of the Surname is Indexed under its initial letter.

The Christian names are, with some few exceptions, Indexed under their modern form—the first spelling of the name having generally been continued in connection with the same Surname.

Illegitimate children are Indexed under the Surnames of both Mother and putative Father.

"N.X.N." signifies "No Christian Name."

An Asterisk following a page number signifies that that combination of Christian and Surname occurs more than once on the page number asterisked.

Note. Reference should also be made to the Corrigenda.
